Samuel Geyser

samgeyser@gmail.com | (970) 218-0851 | Rexburg, ID
github.com/SMGeyser | linkedin.com/in/samuel-geyser-396847393

Computer Science student with project experience in web applications, relational databases, and Python testing. Hands-on experience evaluating AI outputs, using AI-assisted development tools, and leading service teams.

EDUCATION

Brigham Young University-Idaho
B.S. Computer Science, Minor in AI Engineering | Expected December 2028 | GPA: 3.99/4.00
Completed: Programming with Functions, SQL, Dynamic Web Fundamentals, Computer Systems.
In progress: Programming with Classes, Data Science Programming, AI in Software Development.

TECHNICAL SKILLS

Languages: Python, JavaScript, Go, SQL, HTML/CSS; C# (currently learning)
Development: Flask, MySQL, Git, Codex, pytest, Python assertions; AWS (database project)
Data: NumPy, Pandas, Polars, Matplotlib, Jupyter Notebook, relational database design

SOFTWARE PROJECTS

Dynamix | Go, MySQL, JavaScript | Local MVP
- Developed a responsive Druid character manager with private accounts, session tracking, inventory, and JSON export.
- Separated rules logic from storage and handlers; added versioned migrations, action history, and guarded undo.

UnitLog | Python, Flask, MySQL | In development
github.com/SMGeyser/UnitLog
- Developing a rental-property maintenance app for property-specific tasks, priorities, assignments, and updates.
- Prototype includes API routes and versioned schema migrations for accounts, properties, leases, and work orders.

D&D Relational Repository | MySQL, AWS, Python/Streamlit
github.com/SMGeyser/itm220
- Designed and deployed a third-normal-form database using AWS for characters, equipment, and campaign data; built a viewer for character features and custom items.

CRUX Encounter Engine | Python, JSON, pytest
github.com/SMGeyser/cse111
- Built a command-line encounter calculator with JSON creature data and dictionary-based party management; wrote pytest checks for ratings, operations, and error cases.

EXPERIENCE

LLM Quality Assurance Specialist | Handshake and DataAnnotation
Remote | February 2026-Present
- Evaluate approximately 50 STEM outputs monthly for factual correctness, readability, and formatting.
- Identify failure patterns in visual reasoning and structured-data responses to support model improvement.

Service Coordinator and Crew Chief | Discount Tire
Fort Collins, CO | July 2022-October 2023
- Trained and supervised 3-6 technicians, managed time-sensitive workflows, and served 20+ customers daily.

LEADERSHIP & SERVICE

Full-time Missionary | Zone Leader and District Leader
The Church of Jesus Christ of Latter-day Saints | Sacramento, CA | October 2023-October 2025
- Mentored teams in goal-setting and personal development; organized weekly activities for Marshallese members.
